Text · Tune-up repairs

Hi Tom, it's Cedar Hollow Plumbing & Air. Following up on your tune-up estimate for a hard start kit and two capacitors, \$1,095 total. Any questions? Tue 10:38 AM

No reply · Jenny AI texts again Thursday

Does the capacitor have anything to do with energy use? My utility bill has been going up. Thu 11:27 AM

Yes, a weak capacitor makes the compressor and fan motor work harder, so the system uses more energy. Want to go ahead? We can come out next Tue, 1 to 5. Thu 11:28 AM

Yes to all 3. Let's go ahead with the service. Thu 11:33 AM

All 3 items sold in ServiceTitan · visit booked next Tue, 1 to 5
